EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

IN THE CLAIMS:

In claim 15 line 24, delete "[[and]]".

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

Claim 15 (from which claims 16-18 depend) requires a device having a semiconductor element area including a plurality of capacitors, said semiconductor element area being surrounded by a plurality of dummy elements each including a dummy capacitor having both of the following qualities:

1. Each dummy capacitor must have a dielectric layer that is either ferroelectric or has a dielectric constant of 100 or more,
2. Each dummy capacitor must have the same dimensions as each of the plurality of capacitors in the semiconductor element area. Note that the claim recites the plural (dimensions). Dummy capacitors having only one dimension in

common with the plurality of capacitors in the semiconductor element area do not meet the claim.

In their 12/13/07 comments Applicants correctly point out that the prior art teaches the first of these limitations, but does not teach the two limitations, combined.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
